

Outdoors:

To turn your MP3, PDA, iPod as Bluetooth enabled devices by simply connect the audio transmitter via audio out jack of the devices to transfer audio signal to your Bluetooth Headset. By enable your Cellular Phone, you won't miss any phone call as it rings. No installation required except pairing the Bluetooth devices.

At home:

Just Plug-n-Plug the Audio Transmitter via standard audio plug to enable variety of audio devices to transfer the stereo audio signal wirelessly to your Bluetooth Stereo Headset. No installation required except pairing the Bluetooth devices. Enjoy personal Home Theater, or Play Game in an easy, comfortable but cost effective way.

At work:

Turn your PC/NB into Bluetooth enabled devices instantly to listen the MP3, or talk over Skype via Bluetooth Headset & Bluetooth Dongle. Bluetooth Dongle supports full profiles including A2DP profile that not only provides high level of sound quality and allow your PC/NB to connect with other Bluetooth enabled devices wirelessly. Yet, your Bluetooth Headset still allows you listen your Cellular Phone without missing any chance to be reached. Simple & Easy Installation process that makes all your life much easier.

Features

- Enjoy personal stereo music with Bluetooth wireless technology
- Bluetooth specification v1.2 compliant
- Support multiple music sources: Bluetooth dongle for PC/notebook or Bluetooth audio transmitter for TV/MP3 player
- Support Bluetooth cellular phone for headset or hands-free communication
- Automatic music interrupt from Bluetooth enabled cellular phone for an incoming call.
- Audio source switch between stereo music and cellular phone by one touch of button
- Very easy to setup and use
- Replaceable AA batteries

Standards	Bluetooth specification v1.2 compliant	Button/Switch	Power On/Off Volume up/down Phone accept/hang up/mute*
Bluetooth Profiles Supported	A2DP (Advanced Audio Distribution Profile) HSP (Headset Profile), HFP (Hands-Free Profile)	LED Indicators	Blinking (pairing) Steady on (connected)
Radio Frequency	2402MHz~2480MHz	Dimensions	Dimensions: 175mm x 150mm x 55mm
Modulation Method	GFSK (Gaussian Frequency Shift Keying)	Weight	123.8g (excluding batteries)
Transmitter Output Power	-2~+4 dBm	Environment	Operating temperature: 0 to 55° C Operating humidity: 5-95%, non-condensing
Receiver Sensitivity	< -80 dBm	Approval	FCC, CE, BQB
Distance	10 meters up to 20 meters (open area)	Power Supply	Two AA batteries
Audio Format	SBC (Sub-band Codec)		
Audio Frequency Range	20Hz ~ 22kHz		
Active Time	6 hours (two 1.5V/600mA AA batteries)		

Features

- Enjoy personal stereo music with Bluetooth wireless technology
- Bluetooth specification v1.2 compliant
- Suitable for various music sources: TV, MP3 player, CD player and Video game console
- Auto pairing with apm Bluetooth stereo headset
- Very easy to setup and use
- Rechargeable batteries with USB connector

Standards	Bluetooth specification v1.2 compliant	Active Time	7 hours
Bluetooth Profiles Supported	A2DP (Advanced Audio Distribution Profile)	Button/Switch	Power On/Off
Radio Frequency	2402MHz~2480MHz	LED Indicators	Blue: Fast blinking (pairing), Blinking (connected) Red: Charging indicator, Yellow: Low battery indicator
Modulation Method	GFSK (Gaussian Frequency Shift Keying)	Dimensions	73.8 mm x 47.1 mm x 8.4mm
Transmitter Output Power	-2~+4 dBm	Weight	24.9 g
Receiver Sensitivity	< -80 dBm	Environment	Operating temperature: 0 to 55° C Operating humidity: 5-95%, non-condensing
Distance	10 meters up to 20 meters (open area)	Approval	FCC, CE, BQB
Audio Format	SBC (Sub-band Codec)		
Audio Frequency Range	20Hz ~ 22kHz		
Input Power	5V/USB connector
